

PROBOND[®]ultra

PROBOND Ultra[®] is the ultimate aluminium composite panel and is suitable for high quality long-lasting cladding, formwork and signage applications.

This unique panel has a PPG FEVE Coating for extended outdoor durability designed to withstand the harsh Australian UV conditions.

PROBOND Ultra[®] is the first choice for high quality long-term use.

With superior quality 0.30mm Marine Grade aluminium it is the perfect panel for 90 degree folding and other formwork.

Quality ISO 9001
