PROCORE A1® and PROMINIUM® Non-combustible aluminium cladding materials are designed to inspire creative, iconic buildings for the future.

Superior mechanical properties with excellent strength-to-weight ratios deliver high workability for fabrication, folding and structural formations.

Outstanding surface flatness is enhanced with premium PPG Kynar 500 PVDF Coatings which require minimal maintenance and providing optimum resistance to weathering and pollutants, providing exceptional long-term outdoor durability.

An extensive range of over 60 solid colours, metallic, woodgrain and other unique finishes are held in stock, while custom colours are readily available on request.

PROCORE A1® and PROMINIUM® are exceptional exterior cladding choices for commercial, residential and high elevation developments within new construction and recladding environments.

PROCORE A1® - Unique technology non-combustible aluminium profile composite core.

PROMINIUM® - Pre-finished solid aluminium panel.

any. colour. you choose.

Any custom colour or size

While PROCORE A1® and PROMINIUM® are available in an extensive range of standard colours and specialty finishes, any imaginable permutation can be created.

Match corporate branding requirements or specific PMS colours or create a combination that is totally bespoke.

Custom sizes are also available and ideal for high volume applications to minimise fabrication effort.

Please note minimum order quantities apply to custom requests.

Corporate branding

PROCORE A1® and PROMINIUM® are the ideal materials to create and maintain corporate imagery and identity. Both deliver long term colour consistency and weather resistance, excellent flatness, rigidity and formability, as well as ease of maintenance.

Major organisations have chosen to use PROBOND® aluminium cladding materials for their Australia-wide requirements to maintain consistency across all of their operations.

A collection of mushrooms, some whole and some sliced, are arranged on a dark, textured surface. The mushrooms have dark brown caps and light-colored gills. In the bottom left corner, there is an inset image showing a wooden floor and a white baseboard. The word "natural." is written in white, lowercase letters across the center of the image.
